THE ALLIANCE UNIVERSITY NATIONAL DEBATE 2018

"THE BALLOT WRANGLE" May the polls be ever in your favour!

"Well done is better than well said" – Benjamin Franklin

It is well ingrained that elections shape a country better than its buildings. Elections have played a pivotal role in shaping India's political scenario. Since its independence, elections offered a plethora of choices for its citizens to elect their leaders. Since India's first election in 1952, to the latest in May(Karnataka), several issues have posed challenges to citizens' right to make informed choices. Some of the issues include EVM tampering, booth capturing, defection, religion-based appeals to votes, and other campaign related offences. These strike at the roots of opportunity to elect a leader of their choice. Therefore, it is imperative to understand these issues and debate on their solutions till we evolve a suitable practice that eliminates these issues.
